What is Accounts Payable:

2

- ▶ **Accounts Payable (AP) is the process of managing:**
- ▶ Vendor invoices
- ▶ Payments to suppliers
- ▶ Vendor balances
- ▶ Purchase-related financial transactions
- ▶ **Goal:**
- ▶ Ensure accurate and timely payments
- ▶ Maintain vendor relationships
- ▶ Control cash outflow

Accounts Payable Setup Overview:

3

- ▶ Step 1: Setting up the module.
- ▶ Step 2: Creating vendors.
- ▶ Step 3: Create vendor invoice journal.
- ▶ Step 4: Recording and posting the invoice journal.
- ▶ Step 5: Creating vendor payment journal.
- ▶ Step 6: Verify the vendor transactions.

Step 1: Setup the module:

After selecting vendor posting profile, the system will open the configuration page so we can:

1. Create new posting profile.
2. Define accounts used for vendor transactions.
3. Assign accounts based on vendor groups or specific vendors.

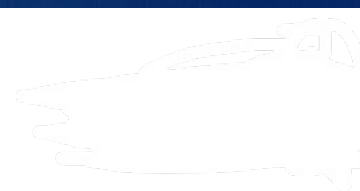

Step 2: Creating Vendors:

5

After creating the vendor there are information to be filled:

1. Vendor account number.
2. Vendor name.
3. Vendor group.
4. Purchasing currency.

Step 3: Create Vendor Invoice Journal:

6

After that we need to create the vendor invoice :

1. Tap on (New) button.
2. Name the vendor invoice (VENINV).
3. Choose the journal type (Vendor Invoice Recording).
4. Choose a voucher series (Acco_10002).

Step 4: Recording and Posting the Invoice Journal:

7

After that , We need to press on New and the system will auto generate (Journal Batch No.), Then:

1. Choose the journal name (VENINV).
2. Press on (Lines) button.
3. Enter the invoice details (vendor acc., invoice date, invoice no. and description.
4. Enter the amount in (Credit) and choose the currency.
5. Choose the offset account type (Bank, Ledger) and offset account.
6. Press on Validate to check if there any errors.
7. Press on Post when the operation is completed and has no errors.

Step 5: Creating Vendor Payment Journal:

8

After that , We will create journal name for payment (AP-PMNT) as step 3 then:

1. Press on (Lines) button.
2. Choose the vendor account.
3. Enter the amount in (Debit) and choose the currency.
4. Settle the vendor transactions.
5. Mark the invoice needed to be paid and press (OK).
6. Choose offset account type and offset account.
7. Validate to make sure there're no errors then, Post.

Step 6: Verify Vendor Transactions:

9

Then we will:

1. Press on vendors button at the top of the page.
2. Press on transactions button.
3. Choose transactions.

It will show us all the vendor invoices , settlements and payments' transactions.

Both entries should show that the invoice has been settled.

Thank You
